Rec'd 30.10.24

SIR,

With reference to your letter No.1041 dated 1st May 1924, forwarding for report, the communication of the Comptroller in the matter of the enhanced rate charged by the District Forest Officer, Bhadravati, for the supply of hay to the Maidan parts of the State, I have the honour to state that Government in their Order No.221-32/Dis.8-23-5 dated the 11th January 1924, sanctioned the following rates towards the supply of hay:-

	Rs. per ton
(1) Baled hay ...	20
(2) Hay to be cut and reserved	15

2. The Comptroller's objection is that Government sanction should be obtained for admitting the charge at Rs.21/- per ton, since the rate sanctioned by Government is only Rs.20/- per ton. The District Forest Officer has reported that considering the labour difficulties and the remoteness of the locality where grass had to be cut and carted, he had to pass the bills of the officer in charge of Hay Collection at Rs.21/- after inspection, in respect of Baled hay - Item No.(1).

3. As regards Item No.(2), the District Forest Officer has kept down the cost of collection to Rs.11/- per ton against a rate of Rs.15/- per ton, sanctioned by Government. Under the circumstances explained, I request you to be so good as to obtain the orders of Government to authorise the

the Comptroller to admit the enhanced rate of Rs.21/- per ton in the case of Item No.(1) i.e., One rupee per ton over and above the sanctioned rate of Rs.20/-.

2. Copy of District Ft. Officer's docket No.1052 dated 25-4-24

copies of the marginally noted communications - received from the District Forest Officer, Bhadravati Division from which it will be gathered that the fire was accidental, in as much as, every precaution had been taken to fire-trace the Banaves before-hand. Under these circumstances, I request you to be so good as to obtain the sanction of Government to write off the accounts 38½ tons of hay in question, collected at a cost of Rs.351-5-0.

What is the rate per ton. Is it?

Copy of Report No.424 dated 22-4-24 from the Range Officer, Lakkavalli, to the District Forest Officer, Bhadravati Division

Begs to report that it was very difficult to find out exactly the cause of fire, but it can be guessed that the fi-

fire to proceed from the Kundur Cart-tract towards Hattikere line. The fire has started in the State Forest itself perhaps by bamboo cartmen. There was very high wind and tall grass and dry bamboos. It was not possible to control the fire, inspite of earnest attempt. The banaves were fire-traced and sparks from bamboo clumps might have fallen on the top of the Banave. Only 38 ½ tons were burnt. The disallowed amount may kindly be passed.

In submitting herewith, copy of report No.424 dated 22nd April 1924 of the Range Officer, Lakkavalli, regarding destruction of hay stacks from fire, has the honour to state that as the hay was stacked in the heart of the bamboo thickets, it would be impossible to prevent destruction of the hay stacks. Under these circumstances, the quantity of 38½ tons may be written off the accounts.
